
State Water Resources Control Board

To Groundwater Quality Funding Program, Site Cleanup Subaccount interested parties,

The Site Cleanup Subaccount Program (SCAP) is in the process of reviewing pre-applications that were submitted electronically via FFAST on or by November 2nd, 2015. This first cutoff date signifies the first funding cycle for the Site Cleanup Subaccount Program. Some applicants have been contacted by Site Cleanup Subaccount Program Staff to request additional information. If you have not heard from us, it means that your pre-application was sufficient for this stage of the review process.

We are nearing completion of our reviews of pre-applications. We will be notifying applicants shortly, by return-receipt mail, to submit their complete application materials. Your prompt completion of the application will help us decrease the amount of time to State Water Board's final approval of grant awards.

Thank you for your interest in the Site Cleanup Subaccount Program and for taking the time to prepare a pre-application. We look forward to working with you.
